# Bradley Inniss

**Phone number:** 813-842-5187   **Email address:** bfinniss@gmail.com   **Web:** bradley.im

## Profile

I'm an engineer and futurist. I want to change the world with software. With a keen eye for innovation and a passion for UX, I strive to create experiences that users genuinely love and appreciate.

## Work Experience

### Red Technologies (Spot Freight)

**Software Engineer** 04/2024 – Present
Building web and mobile apps for freight carriers using React and React Native, supporting multiple internal and external applications involved in the 3PL process.

### Plaid

**Software Engineer** 03/2020 – 12/2022
Founding member of the Growth[1] and Onboarding Risk[2] teams.

1. Integrated a feature-rich CMS with new components and templates for the Marketing team, enabling the quick creation of use-case pages, product pages, and more on the marketing website (plaid.com).
2. Built onboarding and compliance features for the customer dashboard that optimized the workflow of the Risk org while also improving the UX for customers.

### R/GA

**Associate Software Engineer** 07/2018 – 03/2020
Actively contributed to the development of websites for clients including Nike, Google, Pepsi, and Uber.

**Software Engineer Intern** 06/2017 – 08/2017
Collaborated with designers to build the front-end for Nike's Global Community Impact website.

## Education

### Dev Bootcamp

🗓 2016 – 2016  📍 SEATTLE, WA
Dev Bootcamp was an immersive full-stack web development bootcamp.
